

42windmills – generate your back-office applications for the cloud

Online Application Designer

The 42windmills Application Designer® generates **fully working** professional business applications for the cloud and runs in the cloud.

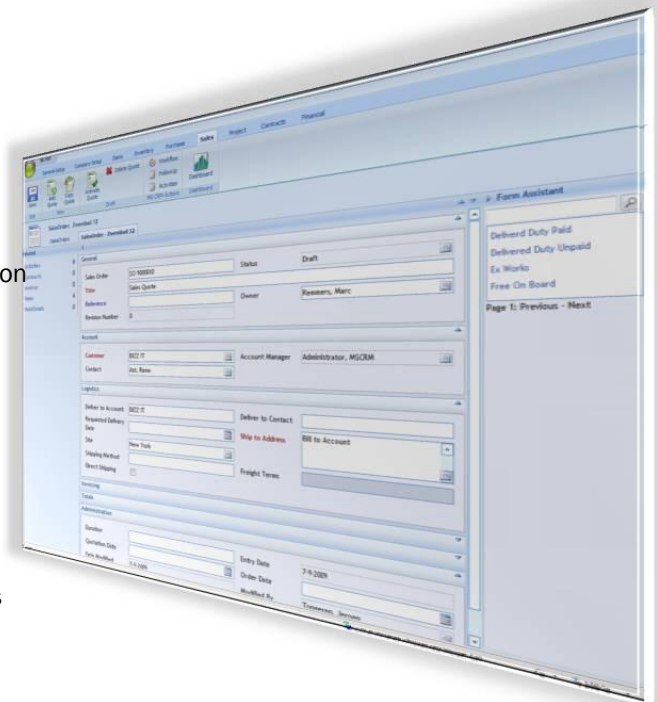

Design your applications, optionally add custom code (VS2010) and re-generate as often as you wish.

One click deployment to Windows Azure.

Generated application

-  For any line of business
-  Comes with workflow engine, queries, reports
-  Includes MS SQL Server database, Membership, Ribbon
-  Intuitive GUI
-  Easily connectible (webservises)
-  Integration with f.e. Bing Maps, Twitter, LinkedIn and Facebook.
-  Store data on your own server or in the cloud
-  No coding required
-  Build new applications or migrate from f.e. MS Access
